

M.S. Volunteers Needed

For Research Study

* * * * *

The Robert Wood Johnson Center for Multiple Sclerosis:

Is currently looking for women with relapsing-remitting M.S. (RRMS) for a 24 month study to see if there are less relapses with the treatment of Copaxone injections plus oral estriol as compared to the treatment of Copaxone injections plus oral placebo.

We are looking for:

Women 18-50 years old

Diagnosed with definite RRMS

Able to walk without any aids such as cane or walker

Had at least one relapse within the last 2 years

**Previous treatment with Copaxone or an interferon
(Avonex, Rebif, Betaseron) are allowed.**

You are not eligible for the study if you are pregnant, breast-feeding, smoke, or have other serious medical conditions.

This study is being conducted by Suhayl Dhib-Jalbut, M.D.,
Professor & Chairman, Robert Wood Johnson Center for Multiple Sclerosis
Department of Neurology

If you are interested, please call Yaritza Rosario, Nurse Practitioner
at 732-235-7099 for further information and a 20-minute telephone screening to
determine initial eligibility for the study.

Date of Preparation: January 2008
IRB#: 0220060309
Expires: 10/17/2008
